TERMS OF SALE

1. This is an unrestricted mail bid auction sale. All lots will be sold to the highest bidder. Bids are to be entered by lot number as catalogued. Bidders should feel free to bid as much as they want, realizing that all bids are treated as limits, and that all lots will be sold below these limits when competition allows. At the same time, the cataloguer reserves the right to reject totally ridiculous bids, or those bids which in his opinion are not entered in good faith. Closing date of this sale is Tuesday, June 15, 1983. Bids will be accepted until 8:00 p.m. P.D.T. on this date. Phone bids will be accepted.
2. Prices estimated following each lot reflect the current market, and are intended solely as a guide to bidders. You may bid more or less as you wish.
3. California state sales tax of 6% will be added to the cost of all lots delivered within California unless a valid resale number is on file with us. Likewise, sales tax of 6½% will be added to the cost of all lots delivered within the Bay Area Rapid Transit District of the state of California.
4. Mail bid sales are not approval sales. By submitting your bids, you agree to all terms stated herein. No lots may be returned without written permission, and all requests for such permission must be made within three (3) days of receipt of lots. All books are as described. We do realize that there exists the possibility of errors and typographical mistakes. Any errors on our part will be cheerfully corrected. We cannot, however, be responsible for your errors; so please check your bid sheets carefully.
5. Bidders unknown to us are requested to submit suitable credit references (trade references are acceptable), or a deposit equal to twenty-five percent (25%) of their total bids.
6. There is no charge for executing your bids. However, all successful bidders will be invoiced for all postage and insurance. In addition, there will be a fifty cent (50¢) charge per lot to cover handling and packaging.
7. Terms of this sale are strictly cash, payable in United States funds. Payment is due upon receipt of notification. Title to all lots remains with the cataloguer until paid for in full. We reserve the right to withhold delivery of lots until payment has been made.
8. As an aid to unsuccessful bidders, we will notify you within ten (10) days after the sale that such bids were not successful. In instances where an unsuccessful bidder has placed a deposit with us, a refund check will accompany such notification.
9. Good luck to each of you.

Dear Collector:

Welcome to my fourth mail bid sale of fine numismatic books, periodicals, auction catalogues and newspapers. The material being offered is the property of a number of consignors and presents an opportunity to select from a nice assortment of interesting pieces.

Departing from my usual practice of listing titles by collecting category, I have elected instead to list the lots by consignor. I realize that this may cause additional time for bidders to "search" for titles; however, in the interest of timeliness, I have chosen this method to allow me to include the offering with this issue of the "Repository."

While this sale does not contain a great amount of scarce and rare material, it does offer a varied assortment of important and desireable pieces. The opening consignment consists of a nice selection of early American newspaper, each containing interesting and informative articles relating to numismatics. Collectors of private California gold will undoubtedly be interested in the fine run of the "Daily Alta California," published in San Francisco during the "gold rush" era.

But, rather than spend time and space here, I will allow you to peruse the contents, and hopefully find something of interest.

Best Regards,

Cal Wilson

56. THE WALL STREET JOURNAL. Oct. 14, 1943. Fine front page article on coin and stamp collecting as a hobby and an investment. \$ 25.00
57. THE WALL STREET JOURNAL. I am pleased to be able to offer a long run of the "Bible of Wall Street" published in the early part of this century. The lot consists of nearly every issue from January, 1903 to Dec., 1913 - eleven years! Lacking only the March, 1904 volume, and a missing issue here and there. In the early days, the stock market, like just about everyone else, operated six days a week; thus this large offering consists of more than 3,000 individual editions. While lacking the few numbers mentioned above, the run is probably somewhere in the vicinity of being 98% complete. Overall, the pieces will grade from very good to very fine, with the majority falling into the fine category except for the defects mentioned later in this description. Virtually all of the issues

are bound, some hardbound and some in paper covers, in one, two or three month volumes. The 1904 set is lacking the March issues. The consignor states that a very few other individual issues may not be present, but that, for the most part, the run is virtually complete as issued. There is a possibility that the March, 1904 issues are present, but perhaps out of chronological order, as the entire run occupies nearly 6½ linear feet. These papers were obtained from a well known private California University library, and appear to have been used extensively as most issues exhibit some tearing at the middle of the spine. While not "pristine" examples, the present offering affords an unusual opportunity to acquire an important run of the "Bible of Wall Street." It might be well here to remind potential bidders that postage in a mail bid sale is the buyers responsibility, and this large grouping will cost a nominal amount. In addition, due to the volume of material coupled with the amount of time and packing supplies required to accomodate the lot, there will be a \$20.00 handling charge. As always, in any of my sales, this item is sold without reserve. I am not aware of any offering of a similar run, therefore I am utilizing my own judgement in estimating the lot at less than 15¢ per issue, or \$500.00

#### CONSIGNMENT "B"

The following run of Swedish auction catalogues consist primarily of the sales of Daniel Holmberg. These pieces are exceedingly difficult to locate; indeed, the extensive holdings of the American Numismatic Society lack all of the first 92 sales, as well as 20 of the next 35 issued. I know of no substantial offering of these catalogues in recent times. The items are undoubtedly from the library of Alex Julius deLagerberg (1849-1936) as many have his signature or book stamp on the front covers. Mr. deLagerberg was one of the incorporators of the Federal Charter of the A.N.A. in 1911, and served for several years on the Board of Governors. A rare opportunity to obtain some very scarce early foreign auction catalogues. All are in very good to fine condition unless stated otherwise.
